MALKAH ORIAH NPO NUTRITION & FAMILY SUPPORT INITIATIVE **"Nourishing Children, Strengthening Families, Building Resilient Communities."**

INTRODUCTION

MALKAH ORIAH NPO is a community-focused non-profit organisation committed to advancing food assistance, education, skills development, care and sustainable community development.

Our work is guided by the understanding that vulnerable children and families often face multiple interconnected challenges. Hunger, unemployment, poverty, limited access to education and skills, family instability, and economic exclusion cannot be addressed effectively through isolated interventions.

For this reason, MALKAH ORIAH seeks to implement practical programmes that respond to immediate needs while progressively creating opportunities for individuals and families to move towards greater stability, development and self reliance.

The **MALKAH ORIAH Nutrition & Family Support Initiative** is one of the practical ways in which we intend to advance this mission.

SOCIAL UPLIFTMENT

Addressing poverty, inequality and creating dignity for all.

FOOD ASSISTANCE

Providing nutritious food support to vulnerable children and families.

EDUCATION & SKILLS DEVELOPMENT

Creating opportunities through learning, training and skills development.

(NPO) Reg: 295-071

Nourishing Families

Strengthening Families.

building Resilient Communities

COMMUNITY DEVELOPMENT

Building stronger, more resilient communities for a better future.

FAMILY EMPOWERMENT

strengthening families through guidance, support, and resources.

CARE & SUPPORT

Providing care and compassion for the most vulnerable in our communities.

OUR APPROACH: FROM ASSISTANCE TO EMPOWERMENT

IMMEDIATE ASSISTANCE

To provide food and essential support to meet urgent needs.

FAMILY STABILIZATION

Support families to overcome challenges and regain stability.

EDUCATION & SKILLS

Equipping individuals with knowledge and practical skills.

OPPORTUNITY & EMPOWERMENT

Creating pathways to individuals, entrepreneurship and growth.

GREATER SELF-RELIANCE

Building confident, capable individuals and families who thrive.

OUR PURPOSE

Our purpose is to provide structured support to vulnerable children and families experiencing food insecurity and socio-economic hardships while creating pathways towards longer-term family empowerment.

We believe that food assistance can provide an important point of entry into a broader relationship with vulnerable household. Our objective is therefore not simply to distribute food.

We seek to use responsible food assistance as a platform through which **Malkah Oriah** can identify vulnerable families, understand their circumstances, connect them to appropriate development opportunities, and pregressively towards greater self-reliance.

OUR OBJECTIVES

Through the Nutrition & Family Support Initiative, **Malkah Oriah** aims to:

1. Provide regular food assistance to vulnerable children and families.
2. Initially priotize children under the age of 8, who are living in households experiencing food insecurity.
3. Establish a responsible, transparent and measurable food distribution programme.
4. Build sustainable partnerships with organizations, businesses, donors, food producers, retailers, foundations, and community stakeholders.
5. Develop beneficiary registration, food distribution, inventory management, monitoring and reporting systems.
6. Create opportunities to connect vulnerable households with education, skills development, training entrepreneurship, agriculture, employment readiness, and other development programmes
7. Progressively reduce long-term dependency by creating pathways from immediate assistance towards family empowerment and greater self-reliance.
8. Build a sustainable community development programme capable of expanding to additional beneficiaries and community and communities overtime.

OUR INITIAL RESPONSE

Malkah Oriah will begin with a carefully managed pilot programme. The initiative will initially focus on ***children under 8 years of age***.

Registered beneficiaries will receive ***packaged, unopened, non-perishable food products once per week***, subject to available programme resources and donations.

FOOD PRODUCTS MAY INCLUDE:

- Maize meal
- Fortified porridge
- Long life mil
- Peanut butter
- Rice
- Samp
- Beans
- Lentils
- Canned Foods
- Pasta
- Cereals
- Soup mixes, and other appropriate packaged food products.

The programme will maintain beneficiary records, distribution registers, stock controls, food safety procedures, and periodic operational reports. Our intention is to begin responsibly, establish strong systems, measure the effectiveness of the programme, and expand progressively as partnerships and resources increase.

HOW WE INTEND TO ROLL OUT OUR MISSION

PHASE 01: IMPLEMENT

Provide Consistent Food Assistance

The weekly food assistance programme will commence with a manageable number of registered beneficiaries.

Malkah Oriah will coordinate food procurement and donations, storage, inventory management, beneficiary communications, distribution, and record keeping.

Programme performance will be monitored continuously.

PHASE 02: STRENGTHEN

Build Partnerships & Improve The Programme

Using information and experience gained during the pilot phase, **Malkah Oriah** will strengthen programme systems and build longer-term relationships with strategic partners.

The organisation will seek partnerships that contribute:

- Food products
- Financial assistance
- Logistics and transportation
- Storage & equipment
- Technology
- Professional expertise
- volunteer capacity
- Training & institutional development, and
- Long-term programme sponsorship.

PHASE 03: DEVELOP FAMILIES

Move From Immediate Assistance Towards Empowerment

As the initiative develops, **Malkah Oriah** intends to progressively connect participating families to appropriate development opportunities.

These may include:

- Education & training
- Skills development, and
- Other community development opportunities.

Our long-term development pathway is:

- **Immediate Assistance**
- **Family Stabilisation**
- **Development**
- **Skills & Opportunity**
- **Greater Self-Reliance**

PHASE 04: EXPAND RESPONSIBILITY

Reach More Children, Families, And Communities

Expansion will be guided by demonstrated need, programme performance, available resources, funding, institutional capacity, and sustainable partnerships.

Malkah Oriah does not intend to pursue uncontrolled growth. Our objective is to develop a credible, accountable, measurable, and sustainable programme that can progressively increase its impact.

OUR COMMITMENT TO ACCOUNTABILITY

Malkah Oria recognises that every donation and partnership creates a responsibility to account for the resources entrusted to the organisation.

The initiative will progressively maintain:

- Beneficiary registration
- Eligibility and selection criteria
- Distribution registers
- Donations records
- Inventory and stock control
- Food safety and expiry-date control
- Programme budgets and financial records
- Operational reports
- Monitoring and evaluation indicators
- Donor and partner records, and
- Appropriate governance oversight.

We are committed to building relationships with prospective partners based on ***transparency, responsible stewardship, measurable impact, and regular communication.***

THE FUTURE WE SEEK TO BUILD

Our long-term vision is not to create permanent dependency on food assistance. Our vision is to help build stronger families and more resilient communities in which fewer households require emergency assistance.

We intend to begin with a practical and immediate intervention: **Food Assistance.**

From this foundation, we seek to progressively create pathways towards education, skills, opportunity, family development, and greater self-reliance. We do recognize that this mission cannot be achieved by **Malkah Oria** alone.

It requires committed partners who believe that addressing vulnerability requires both **immediate action and long-term development.**
